What's Happening in the Electrical Power Sector?

- Sept 30th was Orange Shirt Day; a day to commemorate the residential school experience and assimilation practices, honour the healing journey of the survivors, and commit to ongoing reconciliation.
- Darlington Nuclear Plant was awarded the 2019 Sustainability Award by the Oshawa Chamber of Commerce.
- Bruce Power has started producing medical grade Cobalt-60; this will eventually aid in the diagnosis and treatment of different forms of cancer.
- Hydro One is investing to improve reliability, and reduce outages in the Muskoka Region.

On September 17th, the Canadian Association of Women in Construction (CAWIC) held another fantastic annual golf tournament. EPSCA's Valerie Fox and Caitlin Gascon got to enjoy a day on the green while supporting women in construction! Looking forward to another great event next year.

CAWIC is a non-profit organization with a vision of facilitating long-term career success for women in Canada's construction related fields; ranging from tradeswomen, to real estate agents and everything in between.
